## BIG DEVELOPMENT IN THE WHITE CAPS

ORE ENOUGH IN SIGHT AT PRESENT TO SUPPLY THE MILL FOR YEARS

In the opinion of a man highly versed in geology, and a practical miner, who visited the White Caps this week, the orebody on the sixth level has hardly yet been really entered. This is an astonishing statement in view of the developments that have taken place in the east orebody. In his opinion crosscutting from the drift now being run will show greater width some feet in advance than at present, owing to the almost total disappearance of the calette, which hitherto was mingled with the ore, cutting down its grade, says the Manhattan Magnet.

The drift is now in 80 feet and the face is in solid ore. Unofficially it is reported that the average grade of the ore is 28 to the ton. One pleasing feature is that the arsenical sulphide, the blood red realgar, which on the levels above yielded small values hardly worth the saving, now is running as high as \$30 to the ton, although the bulk of the arseniferous matrix is still stibnite, as black as shoe polish at times, and again of a grayish cast, sometimes crystallized and at others amorphous.

Two raises are being sent up from the sixth and the soft nature of the formation renders it possible to keep the mill supplied with about 110 tons daily, there being no necessity to rely longer upon the stopes, which are held in reserve.

On the fifth level the work has all been in ore during the past week, it being in the upward extension of the same orebody as on the sixth. The drift on the fourth level is going forward rapidly and it should also pick up the east orebody.

It was rumored this week that after cutting the orebody on the sixth for a distance of 51 feet, its wall was found and penetrated, when another orebody was discovered. Further work has shown that it is all one tumerole, with a slight fracture in it, hardly worthy the name of even a step fault. A cross drift, parallel to the footwall, has been started on the fifth level. All in all the mine is in better shape this week than ever before, having its ore measures proven to the point where there is no possibility of exhaustion for years. Before long work will be conducted to the westward on the sixth level.

Despite the wonderful showing, making the Caps, potentially, probably the biggest gold mine in the state, the stock is still inactive, although it is eagerly purchased, to the very limit of their ability, by all Manhattanites, who are getting in on the ground floor.

### "THE STRENUOUS LIFE"

The senior class of the Tonopah high school has selected for the class play to be presented in May the college comedy entitled, "The Strenuous Life." The plot is laid at the University of California at Berkeley. The play is a royalty play and the opportunities for making a success of the presentation are unusually good. Practice will begin within a short time, assignments of characters being under consideration at this time.

### NEW BOOKS ORDERED

The school library will soon be enriched by the addition of a hundred dollars' worth of new books recently ordered from the library fund. Some of the fund is being used to provide subscriptions to a number of the best magazines.

## WILL INCORPORATE GIBRALTAR GROUP

PROPERTY IN SMOKY VALLEY HAS SPLENDID SHOWING IN SILVER ON SURFACE

The Gibraltar group of claims, six in number, located near the mouth of Jet canyon in Smoky valley, will shortly be incorporated and development work will be undertaken on a large scale.

The estate shows a vein lying between dacite and andesite. It is fully 120 feet between walls and for 60 feet is mineralized, assays across 5-foot sections running as high as \$110, all, or nearly all, in silver. Thus far the development work has been superficial, but the contour of the country will permit opening the ledge at a depth of 1000 feet by means of a tunnel that will gain foot for foot.

There is plenty of wood and water on the ground and the power line at Round Mountain is only six miles away. The owners of the property are William Forman, Sam Forman and Harry Stimler.

## ST. PATRICK CONCERT AT AIRDOME TONIGHT

Sharp at 8 o'clock this evening the St. Patrick's day concert will start in the Airdome. It will consist of vocal and instrumental music with other features. Following the concert there will be a lecture by Father Austin Fleming. While his theme will be the life of the patron saint of Ireland, he will dwell at some length upon the political situation in the Emerald Isle and the struggle of its people for freedom.

Then will come the dance. One admission only will be charged for the entire evening's entertainment. All are invited.

## MISSOURI COLLEGE READY TO COMPETE

COLUMBIA, Mo., March 17.—The University of Missouri, winner of the Missouri valley track championship eight years out of the last eight years and a strong contender for the last four years in the Western intercollegiate conference, faces the approaching track season with only a few "M" men to depend on. Many of the stars still are in the service.

It is believed, however, that Missouri will fare as well as other universities in respect to veterans. The "M" men in training now are Captain Sylvester, hurdler, sprinter and broad jumper; Albus, hurdler; Barlow, quarter-mile and winner in the 440-yard dash last year in the Western intercollegiate meet; Marshall, pole vaulter; Mattingly and Edwards, quarter-milers.

A few freshmen who are showing up well are Lewis, shot-put and pole vault; Parker, half-miler, and Saville, miler; Captain Sylvester is Valley conference champion hurdler, having stepped the 120-yard high hurdles last year in 0:15 1/5.

Some of the Missouri men still in the service are Scholtz, sprinter; Osborn, high jump and hurdles; Renick, hurdles and broad jump; Duncan, miler; Corwin, half miler; Honey, half miler and 440 yards, and Selbie, 440 yards and low hurdles.

### WEATHER FORECAST FOR WEEK

Southern Rocky Mountain and Plateau Regions—Low temperature with rains and snow probable during the first part of the week; generally fair weather thereafter.

## Drill Steel

We have 200 bars each 3-4 and 7-8 octagon Hand Steel, "Red Star" brand.

7c lb.

Delivered depot subject prior sale.

Cash With Order

Leece & Watterson  
BISHOP, CAL.

Freight rate to Tonopah is \$1.37 per 100 lbs.

## MARKET STEADY ON TODAY'S BOARD

Despite the fact that this is a semi-holiday, trading was active on the San Francisco mining stock exchange, the Divides, as usual heading the list in the number of shares trafficked in. All were well sustained in price.

The short interest in Gold Zone developed at the opening of the morning call of the San Francisco stock exchange when the shorts had to cover and found they had to pay the price for their folly in shorting the Zone as low as 21. Brokers have been complaining for some time about the delay in securing delivery of Gold Zone bought in San Francisco until the complaint became so general that customers insisted on getting their certificates. A peremptory demand was made Saturday afternoon for the delinquent shorts to come through with the price of the stock and the result was that 39 was freely bid on the curb in Tonopah for cash delivery. Holders are not tempted to let go at current quotations and it is understood that only one small lot was turned over on an urgent demand from the coast. This morning the security sold up to 40.

## WEEKLY REPORT OF SPANISH BELT CO.

The San Pedro shaft has been cleaned out to the 1-3-foot level station. At this point the shaft encountered the Barcelona vein. The drifts have been cleaned out for 20 feet on either side, and show a large vein of mill ore with high grade stringers. These drifts were filled with gravel from the surface, as the incline shaft was sunk in a ravine. Assays are taken as the drifts are cleaned, but returns on same have not been received to date. New work will be started on a large scale as soon as the old works are cleaned out.

Work in the main tunnel has been resumed and the outlook is very satisfactory. Some very good samples have been obtained from the last few feet, and from all indications high grade ore can be expected at any round.

## CONTRACT AWARDED BY THE BEN HUR CO.

The Ben Hur company awarded a contract today for sinking the shaft from its present depth of 110 feet and the work will be pushed with all possible speed beginning the first of the month. Low Townsend, who erected the White Caps mill, with a force of carpenters will begin work tomorrow morning erecting the gal-lows frame, which was purchased from the Gold Zone. The frame being an extra one, not needed by the Zone people.

The company is also putting up a 1x10 host house and when that is finished it will rush to completion a 20x18 bunk house. All buildings on the Ben Hur are of new material. A two-drill distillate driven compressor is on the way from the Chicago Pneumatic Tool company.

### CHARIOT GROUP TO START

Zeb Kendall, before leaving Saturday night, closed the purchase of six claims on the east side of the Ben Hur and in proximity to the Gold Wedge Homestead Mining company's group, which was taken over by the Tonopah Mining company. This will be known as the Chariot group. Arrangements have been made for the delivery of machinery and work will begin within the next ten days.

## ROSETTA DIVIDE

New shaft is going down rapidly and well timbered  
Dr. Eiftman's Map shows Rosetta Divide to be the center of a splendid vein system

## PERSONAL

H. S. DEAN of Reno is a guest at the Mizpah.

JAMES W. CONLISK, the powder man's up from San Francisco.

A. M. KING was a passenger this morning for San Francisco.

MRS. MILDRED JAMES of Manhattan is spending a few days in Tonopah.

OMER MARIS and wife are over from Tonopah on a visit to relatives for a few days.

WM. McCLEURE, publisher of the Manhattan Magnet, is in Tonopah for a day or two looking over the Divide district.

JUDGE HEYWOOD, who is connected with the Nevada Wonder Mining company at Belmont is here on a business errand.

BERT WEAVER, assistant postmaster of Goldfield was a visitor yesterday and called upon Postmaster McQuillan.

HARRY RUHL, of Goldfield, who is connected with several companies operating on the Divide, spent Sunday looking over his holdings.

MRS. C. M. BRADNER was a passenger this morning for San Francisco, where she goes to attend her mother who will undergo an operation.

L. L. MUSHETT and CHAS. WITTEBERG spent yesterday in Manhattan looking over their mining interests. Mrs. Mushett spent the day there with friends.

GEORGE T. LUNDLEE, of the firm of Lundlee brothers was a passenger today for San Francisco where he goes to attend the convention of representatives of the Willard Battery company.

R. L. COLBURN, promoter of the Silver King company, has been busy acquiring other properties in the Divide district and could not get away this morning as expected. He will return to the coast tomorrow.

FRED B. MECHLING, district manager of the Nevada-California Power company, has removed his headquarters from Goldfield and established himself here at the present offices of the company in the Elks' Home building.

N. M. MCCORMACK, the transfer man, left this morning for Carson City, where he goes on important business connected with his group of claims at Gold Mountain, which he held for years and which was recently incorporated by a reliable coterie of mining men.

JOHN McGEE, who has accepted the position of manager of the local water company, will arrive this evening by auto from Palo Alto, coming by the southern route via Big Pine and Mohave. He is accompanied by his family who will establish their home in Tonopah.

FRANK H. BERRY, one of the largest stockholders in the Divide Extension, was called to Fresno county, Cal., late Saturday night by news of the serious illness of his father who is over 80 years of age. He left by special auto at midnight and was accompanied as far as San Francisco by Zeb Kendall.

M. H. GASCOIGNE, former manager of the Water Company of Tonopah, left this morning for San Francisco and will probably spend a month on the coast before continuing to his home at New Baltimore, Mich. During his seven months in Tonopah Mr. Gascoigne made many friends.

LOCATION BLANKS in triplicate in book form, on sale at Bonanza of See.

## AMUSEMENTS

RATHBURN PLAYERS IN POPULAR MUSICAL REVUE

As an added attraction at the Butler tonight and tomorrow night the famous Rathburn players will appear in a big musical revue at the end of both night shows, consisting of high class singing, dancing and instrumental solos of classic grand opera, ragtime and "jazz." This aggregation of musical artists is in a class by themselves, and so seldom has the Tonopah public an opportunity of enjoying an entertainment of this kind, that it will be a real treat to everyone. It is entirely different from any musical act that has ever appeared at the Butler and we know you will like it.

The picture program today is also one of the very best of the year, the feature being Constance Talmadge in "Up the Road With Sal," a comedy drama which has not been excelled during the entire season. Miss Talmadge, as Sallie Waters, who at the death of her uncle, Joshua Cabot, has the opportunity to take her automobile, her five thousand-dollar share of his estate, and start off in search of adventure, after having kidnapped her dignified old Aunt Martha. And here begins a series of such ludicrous and ridiculous situations, one after the other, that you will be kept in a continuous uproar to the very finish. It is simply Constance Talmadge at her best, "snuff and" Pathe News will also be shown. Regular price of admission at the matinee with the picture program only. In the evening the Rathburn players will appear at both shows; admission 11:20-25c. Tomorrow the Rathburn company in an entire change of program, and Julia Dean, in "Ruling Passions," a drama of present-day social life, a special feature which is sure to please.

### DEATH OF A. W. HOLMES

Alfred W. Holmes died of pneumonia, following influenza, in Reno Saturday night. He was one of the foremost lodge men in Nevada, being past grand master of the Masons and grand master of the Odd Fellows. He leaves a wife, Mrs. S. S. May, formerly of Tonopah, was his sister-in-law. E. S. Norris, deputy grand master of the Odd Fellows, left this morning to attend the funeral. Deceased was once candidate for secretary of state. He was past potentate of the Eastern Star and a 32nd degree Mason.

### SHOWING IMPROVES

Charles Kellhofer, who is up from San Francisco for a few days looking over his mining interests, spent yesterday at Divide. The Gold Wedge, a property in which he holds one of the heaviest interests, is making a most encouraging showing, he says. The new shaft is now down 72 feet and the values are steadily improving, the rock panning colors. The latest assay was \$2.07 in silver and \$4.60 in gold.

### SALARY BILL PASSES

CARSON, Nev., March 17.—The undersheriff's salary bill for Nye county passed the senate this morning. The vote being unanimous. This increases the salary of the undersheriff of Nye county to \$200 per month. The bill now goes to the governor for his signature.

## CLASSIFIED

FOR SALE—On lease or bond, good claims. Address, E. Lucy, Tonopah. 1275M1716

WANTED—Position by competent stenographer. Box 796. 1276M1812

FOR SALE—Reo touring car, 6 cyl., 5 pass., good as new. Also tables, stoves, tools and merchandise. These articles for sale cheap, account leaving town. Inquire Manhattan saloon. adv1267M511

SEE A. M. KEENAN FOR THE FOLLOWING:

FOR SALE  
Three-room house partly furnished, \$175.

Five-room stone house, completely furnished; close in. \$1100.

FOR RENT

Three-room house, furnished, St. Patrick st., \$15.

Three-room bungalow, furnished, Knapp ave., \$15.

Four-room completely furnished house, University street, \$20.

### SEVENTH CHILD IN THE JIM CLIFFORD FAMILY

Mrs. James Clifford gave birth to a boy this morning, making the fourth son in the family, which consists of three girls in addition, making the circle complete with the lucky number of seven. Mother and child are doing well and the parents are receiving the congratulations of their large circle of friends.
